RE: Renewed
Mining Activity

Dear Mr. Mower:

This letter is written to serve as matter of record and to advise the Industrial Commission of Utah that Energy Fuels-Nuclear Inc., a Denver, Colorado based mining company, plans to conduct underground and surface uranium mining operations commencing August 15, 1977 at the following locations:

1. The Hillside Gizmo and Maybe Mines located 7 miles south-east of the Fry Canyon store in Fry Canyon, San Juan County, Utah.
2. The Betty Mine located at the head of Cottonwood Wash two miles north of the Glade Mine, San Juan County, Ut.

Provided you require any additional information concerning this matter, please feel free to contact our Blanding, Utah field office.

Very truly yours,

Roger B. Smith
Resident Manager

RBS/rb

xc: M. D. Vincelette U.P. Operations

Betty - no activity for 4-5 mos.
Hillside-Maybe-Gizmo - now preparing for operations
ours will be doing cleanup

no further surface disturbance since March
E no further until Oct
will drill a 60 day vent hole.
